

## 2. SWITCH

PROPERTY	DESCRIPTION
<b>value</b> Bool (read/write Number)	The current value (0 or 1) of the switch.
<b>style</b> (constant Number)	A style for the switch control. Possible values are <b>Apple Style</b> and <b>Button Style</b> . An Apple Style button looks and behaves as a regular iOS Switch. A Button Style switch looks like a button with two states
<b>color</b> (read/write String or Number)	The color of the switch control. See description of the <i>color</i> property on the <b>page</b> object for a discussion on possible values.
